## Occupational Health & Safety

It is company policy at all levels to ensure that safe and healthy conditions are maintained and that adequate protective equipment and safe procedures are employed by The Graffiti Restoration Group Inc. personnel with the prime objective of avoiding accidents and health hazards.

Information, training and communication programs with respect to all occupational health and safety standards and laws are provided in order to develop and maintain employee enthusiasm and to ensure our company's long term growth and success.

---

## Environment Policy

The Graffiti Restoration Group Inc. will at all times conduct our operations with due consideration for the effect such operations may have on our environment. Cleaning materials used are non-toxic and recovered. Waste water and cleaning residue are extracted, and stored in our mobile unit for safe disposal away from storm sewers and customer site.

The Graffiti Restoration Group Inc. will evaluate the environmental effects of our operations through periodic reviews by management in cooperation with our site operations personnel. We shall keep abreast of developments in environmental legislation, assess the impact on our operation and strive to ensure compliance with all such legislation in a timely and cost efficient manner.
